SUMMARY

A hard-working developer with a flair for creating elegant solutions. Looking for growth opportunities to try new technologies, use my creative skills and grow my technical knowledge in a team-based atmosphere.

WORK EXPERIENCE

FRONT-END DEVELOPER

Hiberus | 2019-Present

In the last years I have worked in the development and improvement of an internal product done with Angular 8. I have contributed in more than ten projects with Angular 8-12. Nowadays I am currently improving my knowledge of Node.js and web layout. I'm also working as a partial SCRUM Master and Service Manager.

Hiberus | 2018-2019

- Fixed several responsive design errors with Bootstrap, Javascript, CSS and HTML5.
- Developed two different React applications integrated to SharePoint projects.

JUNIOR WEB DEVELOPER

Deloitte | 2016-2017

- Worked on a wide variety of projects and technologies such as ASP.NET, NET Core, JS Angular, Windows Forms, MVC, MySQL, Transact, Javascript, CSS, Vue.js, etc.
- Managed international work teams training and coordinating foreign interns.
- Developed a web application that estimates security risks under an interactive platform with API Services.
